DETAILED ACTION

Allowable Subject Matter

1. Claims 1-47 are allowed.
2. The IDS filed on 5/24/07 has been considered by the examiner. The NPL's filed on 5/24/07 for this IDS included all of the references previously filed on the IDS of 9/29/03 that were not considered by the examiner.
3. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach or render obvious the limitations of the independent Claims 1, 6, 11, 17, 23, 29, and 44. The prior art does not teach or render obvious the limitations of the system/method of the process to determine whether a process is ready to be swapped out of the processor. Specifically, the limitation of the processor first has to determine whether that stream is the controlling stream of the process. Once the controlling stream of the current process is found it is then allowed to be terminated. At this time the operating system is informed that the process can then be swapped out as claimed in independent claims 1, 6, 11, 17, 23, 29, and 44.

Art Unit: 2195

4. In addition, as in independent claims 35 and 41, the prior art failed to teach or render obvious the limitations of the method for restarting execution of a task that has been swapped out of the processor. Specifically, the limitation of creating a stream corresponding to each stream that quit when the task was swapped out as claimed in independent claims 35 and 41.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Wilser whose telephone number is (571) 270-1689. The examiner can normally be reached on Mon-Fri 7:30-5:00 EST (Alt Fridays Off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Meng-Ai An can be reached on (571) 272-3756. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
